GET PAID FOR POLITICAL CHANGE!

Motivate Democracy. Unstoppable.

....

FRONTEND / JAVAV DEVELOPER (F/M/*), FROM NOW ON IN BERLIN

tl;dr looking for a frontend javascript mobile software developer#frontend #js #mobile #developer #reactive #opensource #prototyping #interface

WE...

… are a highly motivated diverse team with the aim to facilitate and encourage political participation. What we want to build is an inspiring and captivating app that brings democracy back into the hands of everyone, together with a world wide standard for blockchain based voting protocols.

YOUR TASKS: YOU WILL...

- … be the interface between designers and developers for this project
- … quickly implement mockups of the design templates
- … develop open-source apps for mobile devices that empower citizens to participate in democracy
- … generate ideas as part of a team which enables people to take part in politics in a easy way
- … be in touch with a worldwide network of open-source developers and experts

YOUR PROFILE: YOU...

- … want to make democracy handy again
- … are willing to commit to a non-profit community project
- … have both programming and designing experience
- … love to think outside the box (don't take this a slogan)

YOUR SKILLS: YOU...

- … are a frontend javascript and/or reactive mobile developer
- … are able to think human-centered (user experience)
- … know reactive programming with javascript, meteorjs or similar libraries
- … are able to quickly implement prototypes from design templates

WE OFFER

- … a motivated, pragmatic, harmonic team
- … campaigns to create huge impact
- … offices in the heart of Berlin (Kreuzberg)
- … a hub to the worldwide network of experts working on what we do
- … full- or part-time, local or remote work options
- … flexibility and a very humane approach to work (non-hierarchical, social, cooperative)

GET IN TOUCH!

- … drop us a line at hello@appstimmung.de
- … or surprise us in our offices in Kreuzberg!
